EMERGENCY MEDICINE PRIVILEGES

**FOR THE MOST ACCURATE INFORMATION REGARDING A SPECIFIC
RESIDENT'S PRIVILEGES, PLEASE CONTACT THE DEPARTMENT.**

Department of Emergency Medicine

Clinical/Procedural Competency Form for Credentialing
House Staff Affairs Delineation of Competencies

Resident Name: Jaan Hasan Resident Level: Pgy-3 Academic Year: 2022-2023

You are permitted to perform medical histories and physical examinations on patients as well to record these items in the electronic medical record. As a result of these encounters, you may also record formulations regarding diagnosis, treatment plans, progress notes, and doctor's orders. All of the above must be performed under the immediately available direct supervision of an attending physician. All documentation of patient encounters must be completed within a reasonable time (within 24 hours) and have an attending physician's electronic signature attesting to the supervision

Unless noted otherwise, the following procedures may be performed under general supervision:

- Basic Life Support/Cardiopulmonary Resuscitation*
- Advanced Cardiac Life Support*
- Advanced Trauma Life Support (EM2 Level & above) **
- Pediatric Advanced Life Support
- Arterial blood gas sampling
- Bladder catheterization
- Blood and blood product consent acquisition and administration
- Nasogastric tube insertion
- Incision and drainage of an abscess
- Laceration repair
- Local anesthetic administration
- Moderate/Conscious/Procedural sedation***
- Patient restraints
- Peripheral venipuncture
- Placement of peripheral intravenous line
- *BLS/ACLS/PALS required prior to July 1st of EM1 year
- **ATLS required during EM2 year; requires successful completion of the course
- ***Moderate/Conscious/Procedural sedation course must be successfully completed

Each resident is required to acquire competent skills in the procedures listed below. These procedures are only to be performed by the resident under the direct visual supervision of an attending physician or EM3/EM4 that is currently credentialed in the procedure to be initiated. You may not independently perform these procedures until you are certified and credentialed to do so by the Departmental Chairperson. The minimum procedural requirements listed below should be met by July 1 of your EM1 year either by direct patient contact or via simulation

374 Stockholm Street
Brooklyn, NY 11237
